

MAMATAN INSPECTION LIMITED

Company Profile

MD STATEMENT

MAMATAN INSPECTION LIMITED is a truly Nigerian indigenous company with focus on optimizing local content to create value and jobs in Nigeria. The company was dully incorporated on 16th of September 2018 as a Private Limited Liability Company by Corporate Affairs Commission of Nigeria (CAC) with register number **RC.1483466** Our operations covers, Installation, Maintenance, Supply of Wellhead/Xmas tree, Gate Valves, Welding, Fabrication, Engineering Works, Drilling Waste Management, Safety Equipment & General Oil Flid Support Services

We are fully committed to the developmental processes for achieving growth and optimizing Nigerian Content in all aspects of our business activities and our management and staff have extensive working experience in Nigeria spanning a period of over twenty years.

We recognize that success depends on delivering a consistently high quality service and we have been able to sustain this through leverage on our reliable and efficient service, our motivated and experienced Nigeria workforce.

Community relations is a value added service central to our comprehensive approach to project management. A strong relationship with the community forms an important part of our everyday activities, ensuring the project site is developed with an environment of trust and understanding, so that work can proceed on time and without costly interruptions.

Installation, Maintenance and Supply of Wellhead Equipment, Xmas Trees and Valves, General Wellhead Maintenance/Repairs Slickline Services, Process and Pipeline Services, Welding & Fabrication, Engineering Works, General Oil field Support Services.

OUR MISSION

Developing long term mutually satisfying relationships with our clients.

OUR VISION

Applying our technical expertise to improve quality and productivity and through diligence, becoming the Engineering company of choice in the energy sector

CORE VALUES

Total commitment to excellence, integrity and good business ethics aimed at customer delight, satisfaction and loyalty

Installation, Maintenance and
Supply of
Wellhead Equipment,
Xmas Trees and Valves,
General
Wellhead Maintenance/Repair
Slickline Services, Process and
Pipeline Services,
Welding & Fabrication,
Engineering Works,
General Oil field
Support Services.

General
Wellhead Maintenance/Repairs
Slickline Services, Process and
Pipeline Services,
Welding & Fabrication,
Engineering Works,
General Oil field
Support Services.

5. Welding and Fabrication
6. Production facility maintenance.
7. Tank Cleaning/Maintenance

Mamatan therefore provide the following services

ENGINEERING AND TECHNOLOGY

Mamatan inspection limited provides rental tool services wellhead and Xmas trees our core team of dynamic engineers are always available to provide expert advice on the use of the tools

CAMERON WELLHEAD EQUIPMENTS

- Conventional Wellheads
- Time Saving Wellhead Systems
- Tubing Hangers
- Tubing Heads
- Tubing Head Adapter

SERVICES

Engineering procurement, inspection, installation and maintenance of tubular goods, wellhead, and Xmas tree, manpower supply services forms the biggest segment of our portfolio and we have integrated our strengths in these areas to offer single-point responsibility. We recognize that success depends on delivering a consistently high standard of service and we are able to offer a fully comprehensive service for the management and execution of projects. We are actively engaged in the following project areas:

1. Installation, Maintenance & Rentals on Wellhead & Xmas tree.
2. Oil & Gas and Special Projects.
3. Pipe inspection.
4. Drilling Waste Projects.

VETCO GRAY WELLHEAD EQUIPMENTS

- Conventional Wellheads
- Time Saving Wellheads
- Tubing Hangers
- Casing Hangers
- Running Tools
- Installation Tools

FMC WELLHEAD EQUIPMENTS

- Conventional Wellheads
- Unihead Wellheads
- DTO Timesaving Conventional Wellheads
- Running Tools
- Installation Tools

AKER KVAERNER WELLHEAD EQUIPMENTS

- SMS Unitized Wellheads
- Tubing Spools
- Casing Spools
- Casing Heads Casing Hangers
- Bushing/Annulus Seals

- Casing Hangers
- Casing Heads
- Running Tools
- Installation Tools

XMAS TREES VALVES AND ACTUATORS

- **Cameron Xmas Trees.** Models; F, FL, FLS, FC, M and M(HT)
- **Cameron Compact Trees.** Ranging from [2-1/16 x 3k] up to [11 x 20k].
- **Cameron Dual Compact Trees.** Ranging from [2-1/16 x 3k] up to [11 x 20k].
- **Cameron Stackup Trees.** Ranging from [2-1/16 x 3k] up to [11 x 20k].

Cameron Valves

- Ball Valves
- Gate Valves: Models; F, FL, FLS, FLS-R, FC, M and M(HT)
- Rising Stem Ball Valves
- Butterfly Valves
- Check Valves
- Globe Valves
- Plug Valves

- Choke Valves: Models; [CC20] [CC30] [CC40]
- Needle Valves

Cameron Actuators

- Pneumatic Piston Actuators: Models; [PneumaticPiston] [MP]
- Pneumatic Diaphragm Actuators: Models; [DiaFlex] [PneuMaster] [MA]
- Hydraulic Piston Actuators: Models; [C] [E] [Gate Master] [MH 60] [MH 70] [J]
- Hydraulic Wire Cutting Actuators: Models; [CSWC] [Wire Master] [MSVW]
- Hydraulic Translating Cylinder: Models; [DAH] [K]
- Hydraulic Actuators: Models; [RV] [SH]
- Electric Actuators: Models; [ME]

- Self-Contained Systems
- Safety Shut-Down Systems

Vetco Gray Xmas Trees. Models; DD, FF

- Compact Trees.; Ranging from [2-1/16 x 3k] up to [11 x 20k].
- Stackup Trees.; Ranging from [2-1/16 x 3k] up to [11 x 20k].

Vetco Gray Valves.

- Gate Valves; Model DD, FF. Types VG200, VG300. Ranging from [2-1/16 x 3k] up to [11 x 20k]

FMC Xmas Trees.

- FMC Compact Trees; Ranging from [2-1/16 x 3k] up to [11 x 20k].
- FMC Stackup Trees; Ranging from [2-1/16 x 3k] up to [11 x 20k].

FMC Valves.

- Plug Valves
- Butterfly Valves
- Floating Ball Valves
- Compact Ball Valves
- Trunnion Soft Seated Ball Valves
- FMC WECO Valves
- Gate Valves: Models; 101, 120, 120plus, 125, 130, 130plus, 135, 150, 160, 200.

FMC Actuators

- HY Hydraulic Actuator
- HYW Hydraulic Sheer Actuator
- PN Pneumatic Piston Actuator

Aker Kvaerner Xmas Tree

- Kvaerner Compact Trees. Ranging from [3-1/8 x 3k up to [5-1/8 x 20k].

Aker Kvaerner Valves

- Wellhead/Xmas Tree Valves. Ranging from [3-1/8 x 3k] up to [5-1/8 x 20k].

Breda Energia Xmas Trees.

- Stackup Trees. Ranging from [2-1/16 x 3k] up to [7-1/16 x 20k].
 - Compact Trees. Ranging from [2-1/16 x 3k] up to [7-1/16 x 20k].

Breda Energia Valves

- Ball Valves
- Slab Gate Valves
- Expanding Gate Valves
- Choke Valves
- Check Valves

Breda Energia Surface Linear Actuators

- Hydraulic Actuators
- Pneumatic Actuators
- Electric Fail Close

MSP DRILEX XMAS Trees

- Solid Block Trees; Ranging from [2-1/16 x 3k] up to [7-1/16 x 20k]
- Integrated Compact Trees; Ranging from [2-1/16 x 3k] up to [7-1/16 x 20k]

MSP DRILEX Valves

- Gate Valves; [MD U Gate Valves], [MD W Gate Valves], [Elastomer Seal Gate Valves]
- Choke Valves; [Cased Choke Valves], [SC Choke Valves], [DH Choke Valves]

MSP DRILEX Actuators

- AE Actuators

- Hydraulic Actuators
- Pneumatic Actuators

GENERAL WELLHEAD MAINTENANCE

- Testing the annulus of Tubing Head
- First & Second-line Wellhead Maintenance
- Setting Back Pressure Valves (BPV)
- Replacing of leaking gates & seats assembly
- Repair & Setting of Flow line Safety Valve Actuator
- Xmas Tree Refurbishing
- Gate Valves, Ball Valves and Plug Valves Refurbishing and Integrity Testing.
- Choke Refurbishing and Change out.
- Actuator Refurbishing and Change out.
- CCU, Cameron Pilot, AVA and Baker Actuator Repairs and Calibration

SLICKLINE SERVICES

- Fishing

- BHP/BHT
- Sand Bailing
- Pulling and Setting of Sub-Surface Safety Devices
- Gas Lift Operations
- Swabbing
- Tubbing Leak Testing
- Wax Cutting
- Setting of Bridge Plug and Packers.

MAIN BUSINESS AREAS:

PROCESS AND PIPELINE SERVICE

- Pre-Commissioning
- Commissioning
- Nitrogen works
- Maintenance and Operations
- Inspection and Conversions
- Shut-down and De-Commissioning
- Pipeline Management
- Wet/Dry Blasting
- Tank Cleaning

- Pressure Testing

WELDING AND FABRICATION

We undertake all forms of Welding and Fabrication including

ARC welding also referred to as stick welding (MMA, SMAW Shielded Metal Arc Welding) MIG welding also referred to as CO² welding (GMAW Gas Metal Arc Welding) Flux cored arc welding, TIG welding (Tungsten Inert Gas Welding or GTAW Gas Tungsten Arc Welding) WFP welding (Well foundation pipe welding) Oxyacetylene gas welding, Spot welding and Hard brazing. We offer all of these forms of welding on site.

Heavy Industrial Metal Welding

This is our bread and butter. We prefer industrial welding and fabrication applications. In the industrial field we do mostly Gas Metal Arc Welding, Shielded Metal Arc Welding, Well foundation Welding and Flux Core Arc Welding.

Light Industrial Metal Welding

This is mainly in the construction industry. Welding and

Services/Experience (Contd.)

fabrication of steel staircases, emergency steel staircases, steel catwalks, post-box banks, balustrades, support beams and any construction steel work.

General Welding Engineering Projects

We do welding engineering for clients who need general metal welding, but do not have the welding equipment or knowledge to undertake the job themselves. Examples of this are repairs to cracked engine blocks and repairs to damaged engine parts. We also weld car body parts for vehicle conversions. We very often get clients who ask us if we do aluminum welding, cast iron welding and stainless steel welding, and the answer is yes.

We can weld material like:

- Mild Steel
- Low Carbon Steel
- Low Alloy Steel
- Medium And High Carbon Steel
- Stainless Steel (Austenitic Type, Martensitic, And Ferritic)
- Aluminium
- Alloy Steels
- Copper

EXPERIENCE

Mamatan Ltd though relatively new in the industry has proved itself as capacity to successfully execute projects in the Nigerian Oil and gas industry. The company has shown itself able to handle projects in the production facilities operations and maintenance, inspection, procurement and manpower categories as well as render consultancy services to smaller services companies in the industry as part of its local content development initiative.

WELLHEAD INSTALLATION

In wellhead installation operation and maintenance, we have successfully executed the projects listed below:

1. OFON Project - Elf
2. Amina Kpono Elf
3. Gbaran #5 SPDC

OUR SERVICES

1. MECHANICAL AND ENGINEERING WORKS

- a. Pipelines and Flowlines Engineering, Procurement, Construction and Installations
- b. Instrumentation Works and Services
- c. Steel/Structural Fabrications Works
- d. Storage Tanks and Pressure Vessels Fabrication and Installations
- e. Piping Fabrication/Modifications
- f. Sewage Treatment

2. QA/QC SERVICES

- a. Cathodic Protection (CP) and Corrosion Control Works
- b. NDT (Nondestructive Testing) Works; Magnetic Particle Testing (MT), Liquid Penetrant Testing (PT), Radiographic Testing (RT), Ultrasonic Testing (UT), Leak Testing (LT) etc.
- c. Welding and WPS Qualification, Field Joint Coating, etc.
- d. Pipeline and Tanks Internal Cleaning, maintenance, etc.

3. PROCUREMENT OF ALL OIL AND GAS FACILITIES EQUIPMENT AND FITTINGS

4. CIVIL ENGINEERING WORKS

- a. Building Construction
- b. Road Construction
- c. Piling Works
- d. Bridges
- e. Dams
- f. Shore Protection
- g. Jetties
- h. Earth Works
- i. Drainage Construction
- j. Concrete Works and Foundations
- k. Water Treatment Plants

5. DREDGING WORKS

- a. River Dredging
- b. Sand Mining
- c. Land Reclamation
- d. Island Creation
- e. Lake Dredging
- f. Marina Dredging
- g. Road Filling
- h. Sand Haulage. Etc.

6. ELECTRICAL ENGINEERING WORKS

- a. Fire alarm and security systems
- b. Fire protection
- c. Lighting
- d. Power Generation & Distribution

We look forward to great business opportunities with you.

OUR CAPABILITIES

Mechanical:

Detail mechanical design for the following system

- Tanks
- Drums
- Manifold
- Heat Exchangers and Flare Knockout Vessels
- Pumps & equipment skid
- Chemical injection package
- HVAC
- Piping & Piping Modification
- Plant Design

Structural / Civil Engineering:

(a) Structural Design/ Detailing

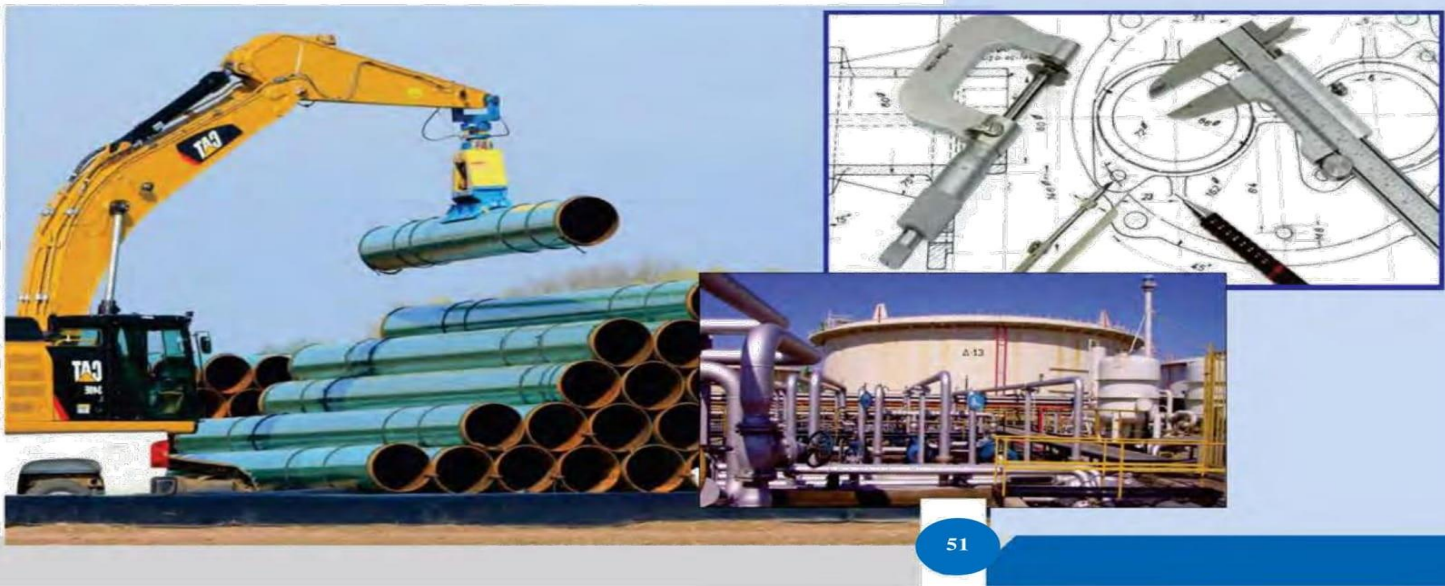

- Piping Support system
- Determination of the optimal pipe support spans for geothermal pipelines

(b) Water Engineering

- Water purification and treatment
- Feasibility studies
- Basic engineering
- Detail engineering
- Construction layouts

Some examples of deliverables are:

- Piping isometrics
- Piping MTO's / Requisitions
- Foundation drawings
- Steel work drawings
- Instrument hook-up drawings
- One line diagram
- Hazard area classification
- Electrical bulk MTO's
- Cable schedules
- Process Engineering flowsheet (PEFS)
- Process and instrument diagrams (P&ID)
- Approved for construction drawings (AFC)
- Tie-In Drawing
- Schematics diagrams
- Estimate of construction cost, sustainable design etc.

OUR CAPABILITIES

We offer compact, ready to use pump packages that are a real solution to your specific application, whatever it is, wherever you are.

Our packages which incorporate LEWA & Wepuko Pumps are the preferred choice of many users for critical operations such as high operating pressure our hard to handle fluid characteristics like low viscosity, high vapor pressure, low lubricity, flammability, toxic, abrasive solid or difficult ambient conditions.

We build packages that meets the most stringent requirements, and international, national and local standards.

Package with LEWA

Our engineers and technicians are trained by LEWA and Wepuko on Pump Design Software and Building of Packages.

We build packages for the following application areas:

Production

- Conditioning of drilling mud
- Flow enhancers for crude oil
- Condensate – injection
- Water conditioning

Transfer

- Injection of methanol, glycol, corrosion inhibitors, scale
- inhibitors and oxygen scavengers
- Addition of demulsifiers and antifoam
- Metering of additives for intermediate underground storage

Processing

- Addition for conditions for the finished product
- Gas odoring
- CO₂ Reinjection / Extraction

OUR CAPABILITIES

Our specially trained Nigeria team of qualified engineers and technicians have been stripping down diaphragm, plunger, screw, centrifugal and hydraulic pumps of different sizes and make at our centralize workshop in Warri for years. We repair pumps, provide OEM spare parts and improvise critical parts from our Machine shop of clients require so – to – do, in other to reduce production equipment down time.

We offer the following services:

- Expedited OEM spare parts supply and index inventory for stock call off agreement.
- OffShore after sales Service contract with regular inspection/planned maintenance for platforms, FPSO, PSO at remote operations.
- Installation and Commissioning of Pump Unit and packages including preservation treatment
- Training of your operating/maintenance personnel
- Our personnel posses Swimming and Offshore activity certificate

We maintain / repair all kinds of Pumps – Diaphragm, Plunger, Radial Piston, Gear, etc

We maintain pumps of various Type from Little metering pumps to large process pumps.

We have also passed rigorous technical and financial requirement needed to participate in the following projects:

1. Procurement, Installation and maintenance of all kind of offshore platforms production valves and pumps.
2. **Mamatan** has facilities that have met the industry requirements.
3. The company is able to pass the rigorous requirement for these projects owing to our possession of the requisite manpower, equipment and financial base needed to perform on these projects.
4. We are also able to leverage our strength with the vast experience of our Personnel which are brought to bear on projects.

Health, Safety & Environment Policy

Overview

Vision:

To be recognized as the global leader in HSE performance in the Oil and Gas Industry.

Mission:

To ensure that all our activities are carried out in a healthy, safe and environmental responsible manner.

To continually improve our HSE performance.

Mamatan is committed to a health, safety and environmental management system that conforms to the best practices of our industry. Health, Safety and environmental consideration are a top priority in the planning and development of products, services and processes.

It is our policy to:

1. Maintain safety in all our activities and provide safe facilities and equipment that are properly designed, reengineered, constructed, maintained and operated.
2. Comply with all Legal HSE requirements, national and international standards.
3. Work with our contractors and suppliers to help them to commit to our HSE Standards.
4. Ensure that employees, contractors, and stakeholders are aware of and trained on our HSE requirements and abide by them
5. Strive to reduce the environmental impact of all our operations, to identify and minimize risks and to prepare to

take relevant actions should an incident occur.

6. Endeavour to manage natural resources in a responsible way to preserve biodiversity for future generations and promote sustainable development of our communities.
7. Report and analyse all incidents and anomalies in order to improve procedures, behaviours of operators and equipment in the running of our operations.
8. Recognized and motivate those who contribute to improved HSE performance
9. Ensure proper personal protective equipments (PPE) are used always where necessary.
10. Set targets for Health, safety & environment and ensure regular appraisals

Nigerian Content Policy

The Nigerian content is the quantum of composite value added or created in the Nigerian economy through the utilization of Nigerian human and material resources for the provision of goods and services to the petroleum industry, within the acceptable quality, health, safety and environmental standards in order to stimulate the developments of indigenous companies.

Mamatan insp Ltd, is an indigenous Nigerian Company and will fully comply with the thrust of the Nigerian policy:

- 1) To promote a framework to ensure active participation of Nigerians in the petroleum activities without compromising

Corporate Policies/HSE-Q (Contd.)

standards in order to stimulate growth of the indigenous capacity.

- 2) To promote value adding by utilization of local raw materials and human resources for manufacturing of goods and provision of services to the petroleum industry.
- 3) To promote steady measurable and sustainable growth of the Nigerian content.

Plans to fully comply with the Nigerian Content requirements through training, research & development; enhanced Nigerian work scope.

TRAINING

will continuously promote qualitative employees training aimed at sustaining the growth of the Nigerian content and adding value to the Nigerian economy. Experts in our chosen field-both foreign and experienced Nigerian will be hired on consultancy basis to train Mangoch employees using the best facilities and technology.

RESEARCH AND DEVELOPMENT

will consistently invest significant time and money in research and development as a long-term strategy to support the growth of the Nigeria content. Mangoch places strong emphasis on developing innovative technology that adds value for our customers.

ENHANCED NIGERIAN WORK SCOPE

ensures that the Nigerian scope of work on all her projects is more than 95% percentage of the total overall scope of work in terms of expertise and monetary value that will be created in the country by the deliberate use of qualified Nigeria human and materials resources.

Corporate Policies/HSE-Q (Contd.)

COMMUNITY RELATIONS POLICY

committed to a long-term community development; we are committed to the economic empowerment of our host communities in particular and the Nigerian people in general. It is our policy.

- 1) To participate in community development programmes and activities that will raise the standard of living of the people
- 2) Liaise with government and non-governmental organization at various levers in laying groundwork for a better quality of life in Nigeria.
- 3) Employing qualified personnel as needed from the community as a way of empowerment and maximizing Nigerian content.
- 4) Execute skills developments programmes in the community to prepare youths to contribute meaningfully to the growth and development of their communities.
- 5) Encourage agricultural and micro-credit programme in partnership with local government councils for rural farmers in the host communities.

ENVIRONMENTAL POLICY

committed to safeguarding the environment and the prevention of the pollution through the implementation of an effective environmental control system (ECS) it is our policy to:

- 1) Enhance proper waste management through measures that encourage minimization, recycle and reuse of processed waste.
- 2) Encourage individual responsibility for smart environmental control and the provision of adequate means and organization as well as environmental training programmes for our employees and contractors
- 3) Execute our activities in compliance with applicable local and international environmental laws and regulations.
- 4) Ensure all waste generated as a result of our operations must be treated and disposed in away if will not adversely affect our environments.
